

Post Graduate Research Student Representation System

Proposed by: Gabbi Foreman (Academic Officer)

Union Notes:

1. Anglia Ruskin Students' Union already has a Representative System that supports students on all courses but does not extend to PGR (Post Graduate Research) Students
2. There is an increasing amount of PGR Students attending Anglia Ruskin in line with the University corporate plan

Union Believes:

1. That PGR students are an important part of the Students' Union membership
2. That there should be representation systems in place that supports all students as representing students is a key part of the Students' Union

Union Resolves:

1. That the Students' Union is mandated to create and maintain a representative system whereby PGR students are represented
2. That such a system is anchored to the Academic Officer role
3. That the Students' Union will work with PGR students to ensure the representative system is fit for their diverse needs
4. That such a system will be actively reviewed as the needs of PGR students develop
