

Student Bar on the Cambridge Campus

Proposed by: **Adam Koenig 3rd year Law Student Cambridge Campus**

Seconded by: **Dan Challiss**

Union Notes:

The experience of attending University should be not only an educational experience but an enriching social experience. A bespoke Student Bar would allow not only students but staff and visitors to the campus who are attending courses and seminars to relax in a bespoke Student Bar.

This would not be a replacement for the Academy for Club nights, but a supporting venue that would allow for maybe an acoustic session in the Bar, or for Clubs or Societies to hold meetings and club nights on Campus, as opposed to local pubs and bars. Even go as far as having exhibitions from the Cambridge School of Art.

We currently have the opportunity to buy wine and beer from the Coslett Coffee Shop but this is such a sterile environment as it forces both students and staff to leave the Campus and seek out a local bar.

Union Believes:

The experience of attending University should be not only an educational experience but an enriching social experience. A bespoke Student Bar would allow not only students but staff and visitors to the campus who are attending courses and seminars to relax in a bespoke Student Bar. They could enjoy a beer, a glass of wine or even a soft drink or coffee. This area would offer the likes of a pool table, flat screen televisions offering rolling news or sport events. The Student Bar would be run by a professional manager and he or she would employ some students as staff, thus offering employment for the students in residence.

Union Resolves:

That the SU should consult the University in finding a suitable venue on the Cambridge site for a Student Bar to be implemented for future students.
