0	Audio recordings for lectures	So that we can listen to the lecture again in case we missed anything.	Good idea in case anyone misses a lecture This is something the disability team are trying to get to happen as SFE no longer support students who need a recording app as they say Uni responsibility ~ However, if we record every lectures students will just not turn up so therefore it should be limited to giving to only those with disability needs and authorised absences but all recap lectures, assignment review lectures and revision lectures should be available to everyone. But first the need to mend all the equipment and have it working correctly so it doesn't fail in lecture rooms	Academic	EMRITH, BENAZIR		GA to respond and incorporate in wider paper for QESC. 1	Recorded Lectures	I believe that the university should provide the facility to record all lectures and put them on the VIE whether audio or Visual I believe that this would be beneficial for students, because they would have the ability to go back listen or watch the lectures and study accordingly at home leading to a much higher pass rate, how this is facilitated is the biggest question but I believe that this would be beneficial and pose a fair platform especially for students with learning difficulties + slow	See my comment on above thread for same thing	Academic	JOHNSON, GERARD	Chelmsford	See (3) above	No update received
4	Revision sessions on weekends	Have revision sessions on weekends at reliable times	<p>Good idea!</p> <p><b>GA:</b> Hi Ange-Jordan! I just wanted to clarify - did you mean for lecturers to be around on weekends or for the facilities to do revision at weekends? I don't think we'd be able to get lecturers to stay around on weekends as they have contracted hours. However, aside from the library being open and all computers accessible at weekends, I could do a Saturday or Sunday afternoon event in one of our event spaces where we have lots of tables and chairs out, stationary, revision tips/resources and some music and soft drinks to create a revision get together? Let me know what you think, I'm glad you put this forward! Best wishes :)</p> <p>Quiet zones in open access in the evenings and weekends would be a good start!!</p> <p><a href="https://www.angliastudent.com/represent/councilsandforums/?idea=480#idea480">https://www.angliastudent.com/represent/councilsandforums/?idea=480#idea480</a></p>	Academic	ABY N'CHO, ANGE-JORDAN	Cambridge	GA to as well e-mail response	No update received

2	Skype for streaming webinars	We now have Skype for Business on our desktops, I would like to see this being used for streaming webinars, seminars, ARU conference events or even lectures for people who are distance learners or who just can't physically make it to an event. It is a simple and effective solution that can host many users in one VC event and allows users to have a voice at an event they can not attend. 16	Better food on campus	Run a campaign to introduce better and healthier food	More Hot foods and halal meat as well! Faster coffee queues Much much much better quality	Catering	HUMPHREYS, LAUREN	Cambridge	DL to invite in to discuss further on 14/04. SH/LR to respond and follow up with Catering, Hospitality and Events Manager	No update received
6	Better value food in canteen	The food Here is overpriced and not very nice. There is no were to heat your own food or sit properly.	Student canteen need to realise that they are not out to make a profit. Stop with all the nasty signs, and treating students like thieves. 15	Cafe closing times	Some lectures or classes finish at 18:00 so it will be more beneficial if the cafe were open still around this time.	More food options throughout the day? I think the MAB in Chelmsford is open until 9pm Monday to Thursday. However, it would be great if this could be open late on Friday's and perhaps a few hours on Saturday? It would be useful to have them open during later lunches too. Funny though because I've challenged this for four years and never been listened to. Just like the fact that the hot food vending machine is "Healthy" Our lectures in PMI finish at five so I think it would be a good idea to keep this open so we can refuel in our breaks I think that the vending machines should have the options to pay with card. The cafe is sometimes disorganised. It could be better laid out and maybe open longer hours . More products	Catering	RAEMERS, OLIVER	Chelmsford	DL to invite in to discuss further on 14/04. -2	LGBT+ plus Rep	Adding 'A' for allies to the LGBT+ Rep role to allow students who do not define as LGBT+ but consider themselves as a supporter or 'ally' to be able to vote in the campaign rep election.	I really agree with this as this allows all students to help with LGBT+ issues. The intentions behind this are pure, but it defeats the object of having self-defined liberation reps when straight students are able to have a say on issues that don't really affect them. The point of the LGBT rep existing is so we have our own voice to fight our own issues. Being a good ally is standing on the sidelines, being supportive and listening, it's not directly including yourself in decision making processes that, with respect, don't have anything to do with allies. 12	More electric points	We need more charging points for laptops, tablets, etc	<b>SH:</b> Hi Jamie, I will be asking the University to have some portable ones in open spaces. Is there anywhere particular you had in mind? Portable ones can be difficult re H+S if they involve trailing leads. In PMI004 it is near impossible to bring a laptop to do work on because there are next to no plug sockets. I would rather use my laptop then write hand notes. 10	Puppy rooms	Get in contact with a local shelter or guide dogs and for a couple of hours every few weeks (preferably during exam season) designate a room where students can go and play with puppies. It's therapeutic and will relieve any stress or sadness the students are currently experiencing. Other universities do this and I have heard that they definitely do work and are great fun for students and puppies!	It can surely help in stress relief to have a puppy room Agreed	Facilities and Estates	CARR, CHLOE	Cambridge	SM to respond. 9	Recreational spaces	Recreational spaces are dwindling in uni. The student lounge is gone. Open spaces have gone with the building of the super lab and new campuses show a disregard for student social space with clinical white walls and vending machines counting as social space it's ridiculous. There is nowhere to relax and get away from studying on campus. I propose that the union lobby's the university to get more social spaces on all Cambridge based campuses that have actual relaxing environments that include music playing and to/projectors		Facilities and Estates	COURT, TIMOTHY	Cambridge	SM to respond. 6	Support your students by keeping the ARU Nursery open!	Many students with young children are facing a fundamental issue at ARU if the Nursery closure goes ahead. There is no where for student parents to turn to as there are NO nursery spaces in Cambridge for this September. As a student, even if you don't think this will affect you, please support the students who are trying to make a better life for themselves and their babies. This is so important to all of us, and as a University we should stand up for what is morally right.		Facilities and Estates	BUCK, DAISY	Cambridge	No action	No update received

0	Digital Copy Service, meet Books Plus.	Digital Copy Service(DCS) currently does not take your Books Plus money for transactions. With dissertation printing/binding costs, poster printing and laminating, the costs of students to hand in their Final Projects can be extortionate. It would not take much for the University to arrange payment via the Books Plus scheme, further making use of facility.
