

**Candidate for the position of Women's Rep (Cambridge)**

**Kyia Thompson**

"If I was elected Women's Rep for Cambridge for the next academic year I would continue to work on my current campaign for raising awareness of sexual harassment towards women at University. This year we have achieved so much, but we still have a long way to go! So far I have collaborated with Anglia Ruskin University Student Services to hold a panel titled "Time's Up for Sexual Harassment: Twitter trend or new dawn on the horizon?" The panel was a massive success with 60+ students attending to ensure their voices were heard! I also attending monthly meetings with ARU about how the University can support victim-survivors of sexual violence! If elected again I will continue this collaborative work with ARU, and ensure the women's voices continue to be heard!"
