

**Candidate for the position of International Rep (Cambridge)**

**Antonia Vetter**

Dear Student Union Members,

I am interested representing other students as International Rep in Cambridge.

Cambridge is my home since September and so far I have met a lot of interesting personalities in and around ARU. My friends recognized that it is an ease for me to talk to new people and to make friends. Working as tutor in school and in my undergraduate studies has provided me always a big joy and I believe that representing other students' interests at ARU will do the same. It would be a great chance for me to enhance my skills in negotiation, team work and leadership.

I am a postgraduate student in MSc International Business and interested to connect with students from other nations.

If you think that I meet your expectations working as a International Rep, then I would be very happy to hear more about it!

All the best,  
Antonia
